PAG/M-716-64

3 June 1964

MEMORANDUM FOR: Executive Director, NPIC

SUBJECT: Conference with DIA Representatives Concerning  
Updating Surface-to-Air Missile (SAM) Listings

A meeting of NPIC and DIA representatives will be convened on 4 June 1964 at 1000 hours in PAG to discuss discrepancies which exist between NPIC's and DIAAP-1's world-wide listings of SAM sites and SAM assembly areas. The latest NPIC SAM listings prepared by the Collateral Support Division, dated 15 April 1964 and the latest TDI Monthly Summary dated 8 April 1964, as updated by TDI change Bulletins through J-10, 13 May 1964 will be the basic documents utilized in the discussion. The discrepancies between TDI and NPIC listing consist of 28 SAM sites and eight support facilities. At our last meeting held in January 1964 all discrepancies were resolved with the exception of two or three sites. Because of the differences in criteria used by TDI and NPIC in identifying sites it is not possible to get complete agreement.
